

# When I Start High School

**A Social Story**  
for students commencing Year 7

I am going to a new school next year.

My new school is called high school. It is bigger and has more older students.

In high school, I will have lots of different classes, teachers and classrooms.

I will wear a new uniform when I start high school.

I need to make sure I get  
to school on time  
everyday.

I am excited to go to high school

At high school I will have a locker where I keep my books and other school things.

I will need to keep my locker clean and remember to keep it closed and locked when I'm not using it.

I will have a timetable.  
This tells me what classes  
I have, when I have them  
and who my teacher is.

I will keep a school diary.  
This will help me  
remember my homework  
and what to pack  
everyday.

I will also have a sports bag that I bring when I have PDHPE classes.

I need to bring my books,  
pens and computer with  
me to school everyday.

At recess and lunch, I can sit and talk with my friends, or play games like handball in the playground.

If I am having problems in high school, I can speak to my year coordinator.

If I am finding learning and homework difficult, I can speak to my support teacher.

In high school, I will go on excursions and camps with my classmates.

High school will help me to be more organised, understand the world better, and teach me how to take care of myself.
