

Hills District Speech Therapy

2022 Fee Schedule: Private & NDIA Self Managed

6 December 2021

Dear Valued Client,

We thank you for choosing Hills District Speech Therapy to provide you with high quality Speech and Occupational Therapy intervention and work with you to reach your goals. We are committed to continuing to provide this high level of care.

We wanted to let you know that as of the 1st January 2022, we will be making some changes to and increasing our service delivery fees. These increases and changes will enable us to continue offering quality, individualised services for our clients and their families. They also ensure we retain our superior clinicians and high level of professional development and training. We wanted to provide this information early on so that you have time to plan your ongoing therapy sessions and additional services.

School Based Services

We alert you to some specific new costs/ changed:

School Based Services- Report fees - Individualised Support Plans (ISP). ISPs are valuable reports that assist with guiding therapeutic intervention and ensuring all service providers and Educators are united in the goals and outcomes. Previously ISP plans were not always charged for, however they form a large part of our clinicians' time and are a valuable tool for you and your child's Educators. We will be charging for our time required to collate and write these ISPs in 2022. The cost will generally be between 1/2 and 1 hour and capped at 1.5 hours. ISPs are reviewed at regular intervals and charged at the time of review.

Cancellation Fee Changes

Cancellation notice needs to occur prior to 3pm the day before your session. No fee will be charged in this event. A \$50 cancellation fee will occur for cancellations after 3pm the day before. Where no notice is given, 90% of the session fee will be charged. Cancellations can be done via email, phone and voice message.

To avoid having sessions suspended, we also request that session payments are finalised within 7 days of service and prior to your subsequent session.

At HDST, we endeavour to keep our clients informed of our approaches and clinical decisions. This includes providing you with insight into what constitutes a standard session at HDST (please visit: <https://hdspeechtherapy.com.au/fees/>). Our iceberg
