

AAC GROUP

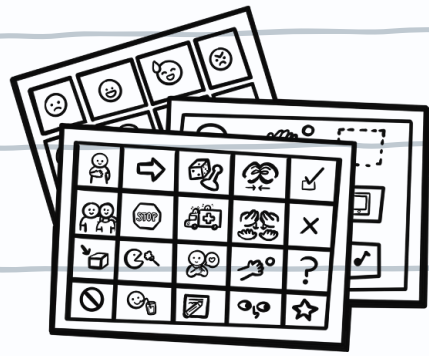

GROUPS FOR CHILDREN AND
ADULTS WHO ARE AAC USERS

The AAC group, facilitated by a Speech Pathologist, offers a supportive environment for individuals who use Augmentative and Alternative Communication (AAC). Participants will have the opportunity to practise language skills, navigate social interactions, and connect with others who use similar methods of communication.

SUITABLE FOR...

- ✓ High tech or low tech AAC users
- ✓ New, or long-term AAC users
- ✓ Have previously, or are currently receiving, 1:1 Speech Pathology intervention

COSTS & DATES

Group session dates are updated regularly on our website. Please speak to a member of our team for more information regarding costs*.

NDIS & health fund rebates can be applied

**upfront and non-refundable.*

WHAT WILL THE GROUP ADDRESS ?

- Different communication styles and modes of communication
- Advocating for sensory and emotional needs.
- Communicative for a range of functions and purposes, including to:
 - Share information
 - Ask questions
 - Make comments
- Skills for interaction including:
 - Starting and ending conversations
 - Conversation topics
 - Managing miscommunications
- Understanding and using 'core vocabulary'
- Navigating social interactions with peers
- Understanding operational and interaction skills unique to AAC (e.g. finding new vocabulary)

NEW CLIENT?

If you have not recently been assessed by a Speech Pathologist, a **30 minute screening consultation** will need to be completed that will allow us to determine your abilities and tailor the groups to their needs.
