

STORY SPROUTS ORAL NARRATIVE

GROUPS FOR STUDENTS KINDY TO YEAR 6

HILLS DISTRICT
Speech Therapy

ABOUT THIS GROUP

This group aims to use the principles of the the **Supporting Knowledge in Language and Literacy (SKILL) Program** to teach the macrostructure and microstructure required to produce coherent oral narratives. There is a strong link between oral narratives and written expression and many children who cannot produce written texts struggle with oral narratives. The group will look at both the macrostructure of stories (e.g. sequencing, including characters, settings) and microstructure elements (e.g. vocabulary). This group uses visuals to teach each element of an oral narrative in a fun, engaging group setting. Participants are encouraged to share their ideas with their peers.

COSTS & DATES

Group session dates are updated regularly on our website. Please speak to a member of our team for more information regarding costs*

NDIS & health fund rebates can be applied

**upfront and non-refundable*

SUITABLE FOR...

- ✓ Primary school aged children (from Kindergarten to Year 6).
- ✓ Children with mild-moderately impaired expressive language skills and delayed literacy skills.
- ✓ Children with weaknesses in/impaired spoken and written narrative skills

NEW CLIENT?

If your child has not attended therapy or been recently assessed/ nor is currently seeing a speech pathologist, they will need to attend a **30 minute screening consultation** that will allow us to determine your child's abilities and tailor the groups to their needs.
